Career Objective

Aspiring full-stack MERN developer and AI engineer with a passion for building scalable web applications and intelligent real-world solutions. Seeking opportunities to leverage expertise in MongoDB, Express.js, React, and Node.js while expanding knowledge in AI-driven development, workflow automation, and prompt engineering. Committed to combining software engineering excellence with cutting-edge AI technologies to create innovative products that enhance user experience and drive business value.

Educational Background

BSc (Hons) Computing

2024–Present

Islington College, London Metropolitan University

Kamal Marg, Kamalpokhari, Kathmandu

SLC

2023–2024

National Infotech College, (NEB) GPA: 3.11

Shiromani Tole, Birgunj

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java

Frontend Development: React.js, Next.js, HTML, CSS

Backend Development: Node.js, Express.js

Database: MongoDB, MySQL

AI & Automation: Prompt Engineering (ChatGPT, Claude, Gemini), AI-assisted Development (Vibe Coding)

Soft Skills: Communication, Problem-solving, Team Collaboration, Time Management, Analytical Thinking

Academic Projects

Gym Management System - Java (GUI)

A desktop-based management application designed to digitize gym operations. The system handles member data management, subscription tracking, and record-keeping, replacing manual logs with a user-friendly graphical interface built in Java.

Shop Billing System - Python

A specialized retail automation tool that manages skincare product sales by automating complex billing logic, including "Buy 3 Get 1 Free" promotional offers and VAT calculations. It streamlines inventory management, processes sales transactions, and generates accurate invoices.

Personal Projects

Company Website - TypeScript / Next.js

The official corporate website for Evolvix Infotech IT solutions startup. This project serves as a digital portfolio and service platform, showcasing company offerings in software development and digital strategy, built with modern web technologies for performance and SEO optimization.

DSA Buddy - MERN Stack

A comprehensive educational web application designed to help users master Data Structures and Algorithms. The platform features an in-browser code editor, AI-powered coding suggestions, and access to premium courses and mentorship.

TrustPay - React Native / TypeScript

A trust-focused fintech super app that ensures secure digital payments, transparent transactions, AI-powered financial insights, and intelligent fraud protection.

Repair Shop Management System - MERN Stack

A device repair tracking system featuring real-time support chat with read receipts, a persistent AI assistant, and full booking/repair lifecycle management. Offers seamless invoice management, instant notifications, and a professional admin dashboard.

E-commerce Watch Store - HTML / CSS / Frontend

A premium e-commerce frontend interface dedicated to luxury timepieces. The platform showcases high-end brands (e.g., Rolex, Cartier, Patek Philippe) with a focus on aesthetic UI design and responsive product displays.

Training and Certifications

MERN Stack Development Course | Jan 2025 - April 2025

Digital Pathshala | Full-stack web development certification covering MongoDB, Express.js, React.js, and Node.js with practical project experience.

AWS Academy Graduate - Machine Learning Foundations - Training Badge | 12/02/2025 20

hours completed | Digital Badge

AWS Academy Graduate - Machine Learning for Natural Language Processing - Training Badge | 11/24/2025

20 hours completed | Digital Badge

AWS Academy Graduate - Data Engineering - Training Badge | 11/20/2025 40

hours completed | Digital Badge

AWS Academy Graduate - Cloud Foundations - Training Badge | 11/13/2025 20

hours completed | Digital Badge

Awards / Achievements

Certificate of Participation - "Build the Mini Internet" | March 8-13, 2026

Islington WebDev Community | In recognition of participation in the event organized by the Islington WebDev Community.

Certificate of Appreciation - "SXC Sandbox" Hackathon | February 25-27, 2026

St. Xavier's College | In recognition of successful participation in SXC Sandbox hackathon demonstrating innovation, collaboration and technical excellence.

Certificate of Appreciation - "DAV Codefest 2025" (72-Hour Hackathon) | July 25-27, 2025

DAV College | In recognition of your participation in DAV Codefest 2025, demonstrating innovation, collaboration and technical excellence.
